

ACCIDENT PREVENTION AND SAFETY EDUCATION IN TEXAS

Texas works to address public safety concerns in the state and educates the public on ways to avoid accidents, injuries and deaths. The state dedicates significant resources to prevent motor vehicle accidents. However, despite a similar number of firearm deaths annually in the state, Texas does not devote resources to ensuring the public understands the importance of safe storage of firearms.

Motor Vehicle Safety Education Programs:

- Click it or Ticket
- Child Passenger Safety-Free child safety seat checks in 25 district offices
- Turn around don't drown
- Safe Riders Traffic Safety Program
- Sober and Safe - 7 pages/programs on the website
- Share the Road - 12 pages/programs on safety on website
- Seat Belts
- School Bus Safety
- Back to School Driving Tips
- Stats on Accidents and Deaths
- Occupant Safety Programs
- Safe Riders Traffic Safety Program
- Texans Saved by the Belt

Texas is not addressing the rising number of Texans who die due to firearms each year. We can do more.
